I. Reflections

What were the most useful experiences?

- Zoltan's presentation on Hungary was both interesting and entertaining. The wine-tasting was also both interesting and entertaining – a nice touch!
- It was good to break into groups to progress the work on the Report. If we hadn't done that I don't think we would have been so productive – we worked well together to achieve our objectives.
- Plans for writing an article that we could all adapt for our own purposes should help in disseminating the results of the project.
- A fruitful and enjoyable meeting that showed the results of our work together over the last two years – both in the relationships that have been built up and the move towards common understanding of what is needed to provide the best learning experience for adult basic skills learners.
